PROFILE

Frontend Developer with 7+ years of experience building and optimizing scalable web for fintech, educational, and e-commerce platforms. Skilled in React, Next.js, TypeScript, and modern UI libraries. Proven track record improving user experience, modernizing legacy systems, and integrating payment solutions. Strong collaborator in Agile environments.

LATEST WORK EXPERIENCE

Contractor

APR 2023- PRESENT

Software Developer

- Developed and maintained frontend applications for fintech and educational projects.

Modernized an e-commerce platform (PromoProductos) and integrated a payment gateway (Museo Abasto) using Clover.

Collaborated with cross-functional teams (design, QA, PM, backend) to ensure seamless feature delivery.

Conducted code reviews and knowledge-sharing sessions to maintain code quality.

Tech Stack: React, React Query, Next.js, TypeScript, Material UI, Tailwind, ShadCN, Jest, Storybook, Figma.

Rootstrap

NOV 2021 - APR 2023

Frontend Developer

- Built and maintained frontend features for an educational platform (Emeritus Insight) and internal HR dashboards.

Focused on UI/UX improvements, performance optimizations, and bug fixing.

Tech Stack: React, Redux, Context API, Material UI, Chakra UI, JavaScript, Figma.

GlobalLogic

FEB 2021 - NOV 2021

Frontend Developer

- Worked on a U.S.-based fintech project (Sunlight Financial), modernizing loan management applications.

Refactored legacy codebases and implemented new features following Agile practices.

Mentored junior developers and participated in product decision-making.

Tech Stack: React, React Native, TypeScript, Material UI, Jest, Storybook.
